

# VICTO HONING OIL

## BENEFITS :

- **Victo Honing Oil** is high performance oil designed for precession honing and super finishing operations.
- Its excellent flushing and lubrication properties help protect and extend the life of honing stones
- The oil aids in achieving a high surface finish and dimensional accuracy.
- It has excellent lubricity and flushing properties to remove fine metal particles effectively.

## APPLICATIONS :

- This Product is specifically designed for Honing operation in Automotive and precession engineering Industries .
- It is suitable for ferrous and non-ferrous metals
- It offers excellent filtration property, which help extend the product's lifetime.
- Ideal for Application requiring fine surface finish and close tolerances.

	Cast Iron	Low-medium alloyed steel	High alloyed steel / nickel-chromium alloys	Titanium alloys	Aluminium alloys	Yellow metals

## SEPECIAL FEATURES :

- **Victo Honning Oil** provides excellent flushing and lubrication, ensuring longer honing stone life and high surface finish quality.
- The oil's high oxidation stability helps maintain its effectiveness and prolong its life, even under demanding conditions.
- Its low odor, light color, and minimal mist contribute to improved operator comfort and acceptance.
- It is free from chlorine and heavy metal free, making it safer for both operators and the environment.

## VERSATILITY AT ITS FINEST!
